BAKELITE

Bakelite lighting fixtures and festoon lights

PAGES: 3-11

Bakelite lampholders

PAGES: 12-19

We recommend a range of products made of the first known plastic - BAKELITE.

Our projects are characterized by a timeless appearance, high quality and diligence of the realization referring to the tradition of the Italian company VLM, which has been on the market since 1945.

EUROHANDEL as one of the few companies in the world, has a specialized park machine, the experience and knowledge necessary to process BAKELITE by pressing.
